 Personal Portfolio

SUMMARY

Recent BSc Computer Science graduate from the University of Mumbai with extensive experience in web development. Proficient in HTML, CSS, JavaScript, PHP, MySQL, and modern frameworks such as TailwindCSS and Bootstrap. Proven track record with 1 year of personal project work using the MERN stack and 4 years of experience with PHP and MySQL. Skilled in building secure authentication systems, API development, and integration. Adept at using Git, GitHub, and Postman for efficient version control and testing. Eager to leverage my skills and experience in a dynamic development role.

EDUCATION

Bachelor in Science in Computer Science 2021 – 2024
K.M.Agrawal College of arts,commerce and science  Mumbai, India

12th HSC Science 2019 – 2021
Hill Spring International Jr. College of Science and Commerce Mumbai, India

PROFESSIONAL EXPERIENCE

Web Developer Jun 2021 – present
Freelancer

- Designing and developing responsive websites using React, Tailwind CSS, and JavaScript.
- Converting UI/UX designs into functional web applications.
- Integrating APIs and optimizing performance.
- Collaborating with clients to deliver custom web solutions.

Full Stack Developer Dec 2024 – Mar 2025
Aspireit 

- Developing and maintaining web applications using React and Node.js.
- Implementing user-facing features and server-side logic.
- Ensuring seamless front-end and back-end integration.
- Collaborating with teams in agile development processes.

PROJECTS

Saisio - SaaS Website (Frontend)  Dec 2024 – Dec 2024

Saisio is a fully responsive SaaS website built with ReactJS (Vite) and TailwindCSS, featuring a sleek UI/UX with smooth animations. It includes dynamic pages like Home, Pricing, Blog, Integrations, Register/Login, and more, offering a seamless user experience. This project is free to use and perfect for SaaS or web app inspiration.

Bunzo - Responsive Blog Website

Aug 2024 – Nov 2024

Bunzo Blog Application is a fully-featured MERN stack blogging platform that offers a responsive and user-friendly experience. Users can create, edit, and manage blogs, interact with content via comments, likes, and follows, and customize their profiles.

Flip4Sale – E-commerce Website with Payment Integration

Jul 2024 – Jul 2024

Developed the frontend for an e-commerce website with a focus on mobile devices using ReactJS and TailwindCSS. Integrated Razorpay payment gateway for efficient transaction processing and designed a user-friendly interface. Successfully delivered and deployed the project on Razorhost with the domain flip4sale.xyz.

NotePlus - Note Taking web App(Backend & Frontend)

Feb 2024 – Mar 2024

NotePlus, a powerful note-taking web app I've been working on! Built with the MERN stack (MongoDB, Express.js, React.js, and Node.js), NotePlus provides a seamless and intuitive platform for capturing and organizing your thoughts.

Library Management System (Frontend & Backend)

Oct 2023 – Dec 2023

Library Management System is Dynamic Website that is used to manage book records. Built with HTML, CSS, JavaScript, PHP and MySQL.

SKILLS

Frontend (HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap, ShadCN) | **Backend** (Node.js, Express.js, PHP) | **Database** (MySQL, MongoDB) | **Authentication & Security** (JWT, Clerk) | **Cloud & Storage** (Cloudinary, Firebase) | **Version Control** (Git, Github)

CERTIFICATES

Back End Development and APIs  — Earned a certificate in Back-End Development and APIs from freeCodeCamp, solidifying foundational skills in server-side development and API integration.

Developing Cloud Apps with Node.js and React  — Earned Certificate in "Developing Cloud Apps with Node.js and React" from Cognitive Class (IBM Skills Network)

Full Stack Development  — Earned Full Stack Development Certificate from Board Infinity, demonstrating proficiency in front-end (HTML, CSS, JavaScript) and back-end (Node.js, databases) technologies for web application development.

Introduction to PHP  — Earned "Introduction to PHP" certificate from Simplilearn, establishing a strong base in PHP fundamentals for building dynamic web applications.

Responsive Web Design Course  — Earned Responsive Web Design Certificate from Sololearn, demonstrating foundational knowledge of building websites that adapt to different screen sizes, a crucial skill for modern web development.

JavaScript  — Earned JavaScript Certificate from Great Learning. Strengthened skills in core JavaScript concepts, DOM manipulation, and building interactive web applications.

Using MongoDB with Node.js  — Earned "Using MongoDB with Node.js" Certificate from MongoDB, it make me understanding working of MongoDB databases with node.js

Postman API Fundamentals Student Expert  — Earned "Postman API Fundamentals Student Expert" from Postman, it build basic understanding of working of api and managing it as per need

AWARDS

Introduction to Github - Badge 🏆 [🔗](#)

Microsoft Learn

This course helped me build a solid foundation in the world of GitHub

Creating your first web apps with React - Trophy 🏆 [🔗](#)

Microsoft Learn

Understanding core React concepts like components, state, props, and building dynamic user interfaces.

Build JavaScript applications with Node.js - Trophy 🏆 [🔗](#)

Microsoft Learn

Setting up a Node.js environment, working with modules, and building server-side applications.
